Amendment
EXAMINER'S COMMENTS

This application is in condition for allowance except for the presence of claims 1-31 directed to an invention non-elected without traverse. Accordingly, claims 1-31 have been cancelled.

Drawings

Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

Claims 32-47 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not teach an electrochemical mechanical polishing method by using a polishing article comprising tin particles in combination with the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
